INTRODUCTION

The following narrative and accompanying tables provide information on the characteristics of the Department of Corrections and Rehabilitation-Division of Juvenile Justice (DJJ) institution, camp and parole populations as of June 30 of each year, 1998 through 2007. The statistics reflect both DJJ cases directly committed to its authority and Division of Adult Institution (DAI) cases housed in DJJ facilities pursuant to Section 1731.5(c) of the Welfare and Institutions Code. Under this section, which became effective January 1984, youth committed to DAI can be ordered by the sentencing courts to be placed in DJJ facilities to serve at least part of their sentences.

The characteristics compared include sex, committing court, county of commitment, admission status, ethnicity, average age, and the following categories of primary commitment offense:

Violent Offenses:

Homicide, robbery, all types of assaults, forcible rape, and kidnapping.

Property Offenses:

Burglary, theft (including auto), forgery and check offenses, and arson.

Narcotic and Drug Offenses:

All offenses related to narcotics and dangerous drugs.

Other Offenses:

All offenses not specified above.

Tables are provided for the total population in the camps and for each of the nine regular institutions, two of which (Fred C. Nelles Youth Correctional Facility and Karl Holton Youth Correctional Drug and Alcohol Treatment Facility) are no longer in operations.

Please note: Table 7, El Paso De Robles Youth Correctional Facility averaged 40 contract cases from Monterey County during 2004 (last ward left on August 13, 2004). Additionally, the Southern Youth Correctional Reception Center - Clinic currently averages 25 contract cases from Los Angeles County. The Division accepts contract cases for evaluation, temporaraly housed under-18 state prison commitments, or emergency housing cases, these cases are not represented in this report.

SUMMARY

POPULATION

The institution population of 2,531 in 2007 reflects a decrease of 14.6 percent from the 2006 population of 2,962. For the time period of this report, the decrease has been steady, with a total decrease of 69.5 percent.

The parole population of 2,742 in 2007 is 14.8 percent lower than reported in 2006, and 54.7 percent lower than in 1998.

COURT OF COMMITMENT

From 1998, the percentage of juvenile court commitments in DJJ population has increased to a high of 97.3 percent in 2003. Beginning in 2004, the percentage has declined annually. In 2007, the percentage was 95.2. It is also notable that the percentage of commitments to DAI housed within DJJ facilities dropped from 1.8 percent in 1998 to it's low of 1.2 in 2002. In 2003, a continual increase has been noted. In 2007, the 3.7 percentage were DAI commitments.

Similarly, the percentage of juvenile court commitments on parole has steadily increased from 83.9 percent in 1998 to 98.7 percent in 2007.

COUNTY OF COMMITMENT

The largest proportion of DJJ institution population had been from Southern California, through 2003. However, from 2004 through 2006, Northern California counties have committed more wards to our DJJ institutional population. In 2007, Southern California counties committed 51.1 percent.

Los Angeles County remains as the individual county committing more wards to DJJ institutions than any other. However, the population committed from Los Angeles County has decreased from 29.1 percent in 1998, to 22.6 percent in 2006. In 2007, 23.9 percent were committed by Los Angeles County.

The difference between the major sections of the State has been less notable for the parole population. From 1998 through 2005, the Sourthern California counties represented a slightly greater parole population. Occurring in 2006, 51.0 percent of parolees were commitments from Northern California. In 2007, this number has again increased from the prior year to 52.8 percent.

PRIMARY COMMITMENT OFFENSE

The proportion of offenders in the institutions committed primarily for homicide, robbery and other violent offenses steadily decreased from a high of 63.7 percent in 1998 to 58.4 percent by 2003. By 2006, that percentage had risen back to 65.5 percent. The proportion of offenders on parole for violent offenses has steadily increased from 64.8 percent in 1998 to 74.3 percent in 2007.

Those offenders institutionalized primarily for property offenses (burglary, theft and arson) gradually increased from 23.2 percent in 1998 to 25.5 percent in 2002. Since then, the percentage has decreased to 16.7 percent. The proportion of property offenders on parole has decreased from 23.2 to 15.1 percent.

PRIMARY COMMITMENT OFFENSE (continued)

The proportion of the institution population committed primarily for narcotic and drug offenses decreased from 4.8 percent in 1998 to 2.2 percent in 2007. Those on parole who had been committed primarily for narcotic and drug offenses decreased from 5.9 percent in 1998 to 2.4 percent in 2007.

ADMISSION STATUS

During the period of this report, the proportion of first commitments (as distinguished from parole violators) in the institution population increased from 80.9 percent in 1998, to a high of 84.5 percent in 2004, but is now at 80.9 percent.

The proportion of first-time parolees in the parole population was 75.8 percent in 1998, but has since declined to 69.3 percent.

ETHNIC GROUP

There has been a relative increase to the proportion of Hispanic and African American wards in the institution population since 1998 (from 48.0 to 51.6 percent for Hispanics, and from 29.2 to 30.9 percent for African Americans). Accordingly, White wards rose from 14.3 percent in 1998 to 16.4 percent in 2003. Beginning in 2004, this group has been in a steady decline. In 2007, White wards represented 13.4 percent within the institutions. The remaining groups (Asian and Other) have decreased in their percentage representation.

The trend for parole has been similar regarding Hispanic and African American wards. These groups have increased in percentage since 1998, while all other groups declined.

AVERAGE AGE

Over the past ten years, 19 years has consistently been the average age of the institution population. The average age of the parole population was 21 years of age during the same time period.
